

MEI Names Bill McGinty Manufacturing Manager

Albany, Ore. May 5, 2006 - MEI has named Bill McGinty as its new manufacturing manager.

McGinty will be responsible for supervision and training of 50 employees both on and off-site, as well as manufacturing and facilities operations, safety program implementation and preventive/predictive maintenance programs.

McGinty brings to MEI nearly 20 years of experience in manufacturing, quality control, process engineering, facilities, and preventive maintenance. Before joining MEI, he worked as facilities manager and manufacturing group manager at Tyco Electronics Printed Circuit Group in Dallas, Ore.

About MEI

MEI is a diversified manufacturing and service company serving the semiconductor and high technology industries. The company's specialties include: wet process systems and services; robotics automation software; process tool rigging and crating services; clean room safety, ergonomic and support equipment; as well as a variety of manufacturing services, including machine, metal and plastic fabrication and powder coating. MEI was founded in 1990 and currently employs more than 60 people. For more information on MEI, visit www.meillc.com.
