

**MEI, LLC Announces New Engineering Manager for [Automated Wet Bench](#) Production.**

**Albany , OR– March 28, 2011**

**MEI LLC, a leading provider of semiconductor and solar wafer processing equipment and services, including wet benches, automation software and related service and support, is pleased to announce their new engineering manager, Brian K. Pierce.**

Mr. Pierce will lead the development, implementation and engineering management of the production of [custom automated and semi-automated wet processing systems](#) for the semiconductor, MEM's and Solar industries.

“Brian brings a substantial amount of experience with him to this position”, said Dan Cappello, CEO of MEI LLC. “His capacity to juggle the day-to-day operations of a growing business with the ability to provide excellent engineering and leadership skills will increase productivity, enabling us to keep up with the growth we’re experiencing.”

Mr. Pierce holds a BS degree in mechanical engineering from Oregon State University, and has extensive engineering, production and production management experience in the semiconductor equipment and related industries.

MEI LLC has continued to experience consistent growth since 2005. With their emphases on high uptime, easily maintainable wet benches and wet processing systems, they have been expanding their product lines and markets to include a range of fully automated wet process systems for semiconductor, MEMs and solar wafer processing, in addition to their growing range of semi-automated wet benches for semiconductor processing. MEI is establishing themselves as a leading provider in their industry.

###

***About MEI LLC***

MEI is a diversified manufacturing and service company serving the semiconductor and high technology industries. The company’s specialties include automated and semi-automated wet process systems and services; linear and rotary wet benches for the solar and semiconductor industry, automated chemical delivery systems, control automation software. MEI’s products integrating clean room safety, ergonomic and support equipment, and unparalleled ease of use and maintenance. MEI has built its reputation upon a commitment to outstanding customer service since 1990. For more information about MEI, visit [www.meillc.com](http://www.meillc.com).
